RE: epost Connect replaces PosteCS – please activate your account

Dear Advisor,

Effective December 1, 2013, secure documents that B2B Bank previously delivered to you electronically through PosteCS will be sent to you through Canada Post's epost Connect service.

Canada Post is replacing their current service in order to provide optimum security and delivery efficiency. epost Connect is a digital delivery platform with bank-grade encryption that facilitates sending and receiving confidential messages and documents.

If you do not already have an account with epost Connect, you must register for an account in order to access documents. The link to register for your account will be included in the first email that we send to you using this service.

Please note: There is no charge for receiving emails and files through epost Connect!

To learn more about epost Connect, please visit their website at:
<http://www.canadapost.ca/web/business/support/epost-connect/collaboration.page>.

Thank you for your continued support. If you have any questions, please don't hesitate to contact me.
